Experience

INAOE
Puebla, México.
Software Developer Intern
May 2025 – August 2025
Engineered a multi-platform system collaboratively using **Flutter** and **Dart** under the **SCRUM** methodology to meet critical technical deliverables and milestones.

Skills

Git
Git Flow, Branching & Merging, Pull Requests, GitLab / GitHub, Version Control

Mobile Development
Flutter, Dart, Kotlin, Jetpack Compose, Cross-Platform

Software Architecture
MVVM, Clean Architecture, SOLID, Design Patterns, Hexagonal Architecture

Artificial Intelligence
Machine Learning, AI Agents, NLP, Generative AI, Computer Vision, RAG, Document Intelligence, AI Guardrails

Cloud Computing
Microsoft Azure, AWS, IAM/RBAC, Virtual Machines, Networking, Cloud Security, Cost Management

Backend Development
Java, Python, Node.js, REST APIs, Express.js, SQL, NoSQL

Frontend Development
VUE, Angular, CSS, Tailwind CSS, HTML, React

Languages

English
B1

Summary

Analytical Software Developer with a strong self-learning mindset, focused on engineering secure, scalable, and high-quality technology solutions. Committed to rigorous security standards and software development best practices to drive a positive impact on project and organizational goals.

Education

Universidad Tecnológica de Xicotepec de Juárez
Bachelor of Software Engineering
Software Development and Management
September 2025 – Present

Universidad Tecnológica de Xicotepec de Juárez
T.S.U. • (GPA: 9.2/10)
Associate Degree (TSU) in Multiplatform Software Development
September 2023 – August 2025

Certifications

Azure AI Apps and Agents Developer Associate (AI-103)
August 27, 2026
Microsoft
Skills: Plan and manage Azure AI solutions, apps, and agents.

Azure AI Fundamentals (AI-900) April 6, 2026
Microsoft
Skills: AI workloads, Machine Learning principles, Computer Vision, and NLP.

Azure Fundamentals (AZ-900) August 22, 2026
Microsoft
Skills: Cloud concepts, Azure architecture, security, and compliance.

Projects

Real Estate Platform
Developed a secure and scalable real estate management system using modern technologies and development best practices to ensure data protection and a seamless experience across devices.

Soodan
Comprehensive healthcare platform for clinical management, electronic health records, telemedicine, and hospital administration, developed as an academic project with a focus on security, data analysis, and continuity of care.
